

A cross-sectional view of a multi-layered structure. The structure consists of several layers: a top layer (24) with diagonal hatching, a layer (20) with horizontal hatching, a layer (18) with diagonal hatching, and a bottom layer (30) with horizontal hatching. A central cavity (22) is formed by a series of rectangular blocks (31) that are wider at the top and narrower at the bottom, creating a stepped profile. The blocks (31) are separated by thin vertical lines (16). The entire structure is shown in a perspective view with wavy lines on the left and right sides.
